

# Health & Safety Practices

COVID continues to be an evolving situation. We will continue to update our community if changes to our policies or practices change. **Please don't hesitate to reach out with questions or concerns.** You can email us at [director@lutherheights.org](mailto:director@lutherheights.org) or call (208) 644-0779.

## *Face Coverings*

Face masks are a personal choice for each camper. Masks are available on-site.

## *Meals*

Meals will be buffet-style with all kitchen staff wearing masks.

## *Testing*

Rapid testing will be available for campers or staff if symptomatic. We have protocols in place for positive results, including positive campers going home, staff quarantine, and close-contact reporting.

## *Community Day Camps*

LH Community Day Camps will follow church and city guidelines.

## *Hand Hygiene*

Frequent hand washing and use of hand sanitizer required.

## *Vaccination*

Luther Heights strongly recommends all campers and staff be up-to-date on COVID-19 vaccinations.

## *Camper Activities*

Our programming focuses on outside activities and small group programming. We encourage low-risk behaviors for campers within two weeks prior to their camp start. Ex: avoiding large-group indoor gatherings, going to a movie theatre, airplane travel.
